## SETUP REGULATIONS:

### 1. Space

The exhibiting company has the option of using the booth structure provided by COCESNA. Within the space (3 x 3 meters), they may place furniture and equipment that fits within the designated area to promote their brand.

All exhibitors must set up their booth exclusively within the authorized space. No walls may be added on the day of setup or outside the perimeter. Each exhibitor must arrange for their designated staff to be present at their booth during exhibition hours.

### 2. Audiovisual

The exhibitor has already included a 43-inch TV screen at their booth, using a moderate volume level so as not to interfere with the event. You can connect your computer via an HDMI or USB cable.

### 3. Electricity

The organization does not provide additional extension cords or power strips, so your company must provide all the equipment according to your needs.

## SETUP REGULATIONS:

### 4. Safety

Each stand must be set up using materials and equipment that guarantee the safety of the facilities.

No activity that damages the structure or image of the exhibition floor will be permitted, whether in the common areas, carpet, ceiling, furniture, or other Sheraton Presidente Hotel property. The cost of repairing any damage caused by the exhibitor will be borne by the exhibitor.

The materials used must be easy to assemble and disassemble. The use of flammable materials is prohibited. Any special equipment or tools required for assembly will be borne by the exhibitor.

According to current industrial safety laws, the use of appropriate personal protective equipment (ladders, scaffolding, harnesses, helmets, gloves, carts for moving equipment, belts, goggles, etc.) is mandatory for any work carried out on the premises

## 5. PROHIBITIONS

- The placement of tacks, nails, staples, screws, permanent adhesives, and spray paint on the walls and floors of the rooms while the exhibition is being set up is prohibited.
- Moving the stands provided by COCESNA or removing parts is prohibited; this must be done by the technical staff.
- Making changes or modifications to the stand structure that were not communicated to prior to the event's set-up.
- Painting or drilling into the panels in any way, as well as the floor, walls, or any hotel-owned items (tacks, nails, drills, etc.).
- Using permanent adhesives (silicone, contact cement, wallpaper, spray adhesive, etc.).
- Gluing, nailing, or screwing any type of decoration to the profiles, as well as to the floor, walls, or any hotel-owned items.
- Performing electrical installations or making alterations to them by inexperienced personnel.
- Do not use highly flammable decorative elements or tools such as compressors, drills, electric saws, etc. on the panels.

## RECOMMENDATIONS

- All booths are assembled for rental purposes, so they must be returned in good condition. We make the following observations:

If you wish to hang light objects, you can do so with fishing line on the back of the panels. Any type of removable adhesive can be used to decorate the booth, such as adhesive tape, double-sided tape, metal hooks, fishing line, adhesive Velcro, and others.

## OPTIONAL RENTALS

- two high chairs - \$200
- two arm lights \$150

Thank you very much  
We look forward to seeing you  
in San Salvador!
